

RESIDENTIAL PROJECTS

All the residential projects have been specifically designed for the clients' requirements. I have assisted the clients from the conception of the projects to the final completion.

These projects were completed ahead of schedule and within client's budget with no compromise made on the quality of work.

The scope consisted of full design and construct, including:

- Design and Approval
- Site preparation
- Slab on ground
- Framing
- Roofing, walls, gutters, doors, brickwork
- Insulation, plasterboard, carpentry, plumbing, electrical
- Flooring
